| Total | 100 | 0.3 | 3.2 |

The Food and Non Alcoholic drinks' index went up by 1.9 percent between the months of July and August 2010. This was attributed to the aggregate rise in the prices of a number of food items outweighing falls in the prices of others. Some of the food products which recorded price increases include: milk, sugar, potatoes and wheat flour which rose by 3.4, 2.5, 5.7 and 5.4 percent, respectively. For example, a 2 kg packet of wheat flour was retailing at an average price of KSh. 105.66 in August 2010 compared to KSh. 99.98 in July 2010. On the other hand there were significant falls in the prices of maize flour and maize grain which fell by 3.8 and 2.5 percent, respectively.

During the same period, the Communications' index declined by 23.5 percent on account of significant falls in the cost of airtime in addition to continued decline in the cost of handsets. The average cost of airtime per minute dropped by more than 50 percent for customers procuring the services from major cell phone operators.
