Quarterly Balance of Payments

Second Quarter, 2024

Balance of Payments

In the second quarter of 2024, the Current Account deficit improved by 34.5 per cent to KSh 104.1 billion as highlighted in Table 1. This improvement was supported by an increase in exports of merchandise goods from KSh 249.1 billion during the second quarter of 2023 to KSh 276.3 billion during the second quarter of 2024. During this period, imports of merchandise goods, valued on f.o.b increased by 2.3 per cent to KSh 617.5 billion primarily driven by increased imports of industrial machinery. Consequently, the balance of trade deficit improved from KSh 354.3 billion in the second quarter of 2023 to KSh 341.2 billion in the second quarter of 2024. Net exports of services similarly rose from KSh 27.4 billion in the second quarter of 2023 to KSh 43.6 billion in the second quarter of 2024. This resulted from marginal increases in exports of transport and telecommunications services, coupled with notable reduction in imports across majority of the service categories. Remittance inflows continued to shore up the Current Account and amounted to KSh 157.4 billion in the second quarter of 2024 compared to KSh 140.5 billion recorded in the corresponding quarter of 2023. A reduction in interest payable on external debt resulted to an improvement in the Primary Income account balance from a deficit of KSh 69.8 billion in the second quarter of 2023 to a deficit of KSh 45.6 billion in the quarter under review.

Net financial inflows reduced from KSh 330.7 billion in the second quarter of 2023 to KSh 198.3 billion in the second quarter of 2024 partly attributable to increased external debt servicing by general government. During this period, there was reduced build up in gross official reserves of KSh 84.1 billion from a buildup KSh 150.2 billion in the same quarter of 2023. Consequently, the overall Balance of Payments Position recorded a surplus of KSh 84.1 billion from a surplus of KSh 152.9 billion in the second quarter of 2023, a reduction of 45.0 per cent.

Stock of External Debt Liabilities of General Government

The stock of external debt owed by the General Government amounted to KSh 5,077.5 billion at the end of June, 2024 compared to KSh 5,307.4 billion at the end of June, 2023 as presented in Table 2. This debt was predominantly in form of external loans which continued to account for more than 80.0 per cent of the total stock of external debt, although the stock reduced marginally from KSh 4,277.7 billion at the end of June, 2023 to KSh 4,217.4 billion at the end of June, 2024. However, the stock of loans from multilateral sources continued to grow, and increased from KSh 2,654.9 billion at the end of June, 2023 to KSh 2,786.9 billion at the end of June, 2024, and accounted for 66.1 per cent of the stock of loans during the period under review. On the contrary, the stock of loans from bilateral sources reduced by 13.0 per cent during the period under review to KSh 1,092.7 billion at the end of June, 2024. Similarly, there was a moderate reduction in the stock of loans from commercial sources from KSh 351.3 billion at the end of June, 2023 to KSh 323.5 billion at the end of June, 2024.

The stock of external liabilities of debt securities declined from KSh 1,029.7 billion at the end of June, 2023 to KSh 860.1 billion at the end of June, 2024. The decline in the stock of debt securities was observed in the International Sovereign Bond (ISB), which constitutes the bulk of debt securities, following the repayment of the ISB scheduled for June, 2024. Moreover, non-resident holdings of treasury bonds recorded a marked reduction from KSh 32.0 billion at the end of June, 2023 to KSh 4.9 billion at the end of June, 2024, with non-residents appearing to have preference for the short term Government paper with its stock rising to KSh 329 million at the end of June, 2024.

Note: By convention, guaranteed debt is a contingent liability, hence recorded as a memorandum item.

The figures might differ from the stock of debt captured in the QEBR under Public & Publicly guaranteed External Debt due to inclusion of domestically issued debt held by non-residents.

Debt issued by non-residents is recognized as external irrespective of the currency in which the debt is denominated or issued and vice versa.

Holdings of local currency by non-residents is always a liability of the local commercial banks

International Merchandise Trade

In the second quarter of 2024, trade balance narrowed to a deficit of KSh 383.8 billion from a deficit of KSh 403.0 billion in the same quarter of 2023. The improvement was as a result of a faster growth of total exports compared to imports, as presented in Figure 1 and Table 3. Moreover, the volume of trade rose by 3.9 per cent from KSh 900.5 billion in the second quarter of 2023 to KSh 935.2 billion in the quarter under review.

Value of Domestic Exports

During the second quarter of 2024, revenue from domestic exports marginally declined from KSh 225.7 billion in the second quarter of 2023 to KSh 223.3 billion. This was largely occasioned by significant decreases in earnings from domestic exports of coffee, iron and steel, industrial machinery; and paper and paperboard and articles thereof, as shown in Figure 2 and Annex 1.

Despite the marginal decline in the overall value of domestic exports, earnings from exports of articles of apparel and clothing accessories; and tea increased by 7.5 per cent and 2.0 per cent, respectively, over the same period. This was mainly on account of increased quantities of exported tea, and articles of apparel and clothing accessories.

Figure 2: Domestic Exports of Selected Commodities, 2nd Quarter, 2022-2024

On the Broad Economic Category (BEC) classification, commodities under food and beverage category continued to account for the largest share of earnings from domestic exports at 44.4 per cent in the second quarter of 2024 as presented in Annex 7. In spite of this, the commodities under this category recorded a 2.7 per cent decline in revenue, in the quarter under review. This decline was more pronounced in earnings from domestic exports of commodities under primary food and beverage for industries, and processed food and beverage for household consumption which declined by 18.0 per cent and 6.0 per cent, respectively. In addition, domestic exports of durable consumer goods exhibited a decline of 61.3 per cent in the second quarter of 2024.

In contrast, over the same review period, domestic exports of non-food industrial supplies increased by 1.3 per cent from KSh 58.6 billion in the second quarter of 2023, driven by the primary non-food industrial supplies.

Value of Imports

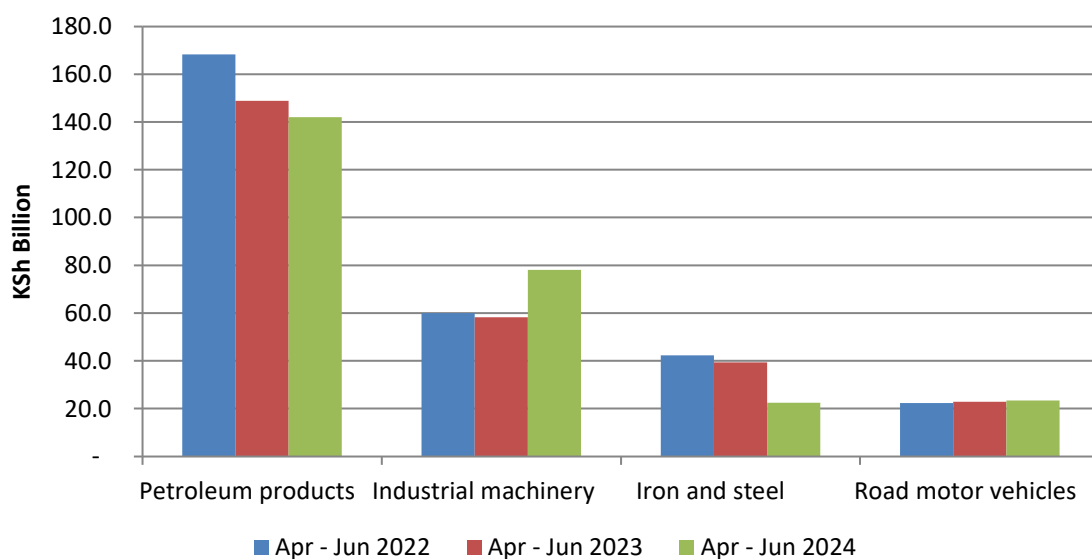

Expenditure on imports in the second quarter of 2024 amounted to KSh 659.5 billion, an increase of KSh 7.7 billion from the same quarter of 2023. This was largely driven by increased expenditure in imports of industrial machinery, and aircraft, associated equipment and parts thereof, as illustrated in Figure 3 and Annex 3. Other imported commodities which registered notable increases during the review period were unmilled

wheat (24.6%), telecommunication equipment and parts (83.1%), and chemical fertilizers (41.7%).

Conversely, there were significant declines in the value of imported iron and steel, and rice which dropped from KSh 39.3 billion and KSh 27.0 billion in the second quarter of 2023 to KSh 22.5 billion and KSh 11.6 billion respectively, in the second quarter of 2024.

Analysis on imports by Broad Economic Category (BEC) classification shows that non-food industrial supplies accounted for the biggest share of import expenditure at 34.0 per cent in the second quarter of 2024, as shown in Annex 8. The import bill on machinery and other capital equipment rose by 26.8 per cent to KSh 88.2 billion while the import bill on transport equipment increased by 33.7 per cent to KSh 52.8 billion. On the contrary, import expenditure on commodities under food and beverage category declined from KSh 94.4 billion in the second quarter of 2023 to KSh 73.6 billion in the quarter under consideration.

Figure 3: Value of Imports of Selected Commodities, 2nd Quarter, 2022-2024

Direction of International Merchandise Trade

In the second quarter of 2024, total exports were valued at KSh 275.7 billion reflecting an increase of 10.9 per cent from the corresponding quarter of 2023, as presented in Annex 5. The bulk of the exports were destined to Africa and valued at KSh 99.1 billion, albeit registering a decline of 5.1 per cent compared to the same quarter of 2023. The reduction in export earnings was largely attributable to declines in exports to Egypt, Somalia and Ethiopia which decreased by 31.0, 42.0 and 23.5 per cent, respectively.

On the contrary, there were increased export earnings from Uganda largely on account of increased domestic exports of food preparations for animals to this destination.

During the review period, total exports to Asia registered an increase of 52.2 per cent from KSh 60.2 billion in the second quarter of 2023, largely on account of increased re-exports of kerosene type jet fuel to United Arab Emirates and Saudi Arabia.

In Western Europe, revenue from exports to the European Union (EU) market shrunk from KSh 42.0 billion in the second quarter of 2023 to KSh 38.3 billion in the second quarter of 2024, translating to a decrease of 8.6 per cent. The decline was largely as a result of decreased exports to the Netherlands which went down from KSh 21.3 billion in the second quarter of 2023 to KSh 15.7 billion in the quarter under review. This resulted from a reduction in the re-exports of kerosene type jet fuel to this destination. On the other hand, exports to America increased by 18.6 per cent from the second quarter of 2023 to KSh 23.6 billion in the same quarter of 2024. This was primarily supported by increased re-exports of kerosene type jet fuel to the United States of America.

Total value of imports in the second quarter of 2024 amounted to KSh 659.5 billion representing an increase of 1.2 per cent compared to the same quarter of 2023, as highlighted in Annex 6. The value of imports from Asia recorded a decline of 2.3 per cent to KSh 435.2 billion in the second quarter of 2024 compared to the same quarter of 2023. In spite of this decline, Asia remained the leading source of imports with a share of 66.0 per cent of the total import bill in the quarter under review. The decline in imports from Asia was mainly on account of significant reduction in imports from Saudi Arabia, United Arab Emirates and India, which jointly declined by KSh 108.6 billion compared to the second quarter of 2023. The significant decline was primarily on account of reduced importation of gas oil from Saudi Arabia, kerosene type jet fuel from United Arab Emirates, and rice from India.

In the second quarter of 2024, the value of imports from the EU rose by 7.2 per cent compared to the same quarter of 2023. The growth was largely boosted by increase in imports from the Netherlands, which more than doubled, arising from increased importation of motor spirit (gasoline) premium from this source. Similarly, over the same period, imports from the United Kingdom increased by 54.7 per cent to KSh 14.2 billion

from the second quarter of 2023. This was majorly contributed by increase in imports of helicopters and unmanned aircraft from this source.

In Eastern Europe, there was a remarkable increase in the value of imports from the Russian Federation from KSh 14.7 billion in the second quarter of 2023 to KSh 25.6 billion in the review period. This was mainly driven by increase in imports of wheat and chemical fertilizers from this source.

During the second quarter of 2024, expenditure on imports from Africa declined by 5.1 per cent to KSh 64.0 billion compared to the corresponding quarter of 2023. The drop was primarily attributable to decline in the value of imported iron and steel; and maize from South Africa. In contrast, imports from Tanzania rose by 36.9 per cent, partly on account of increased importation of rice and chemical fertilizers during the period under review. Imports from America increased from KSh 42.8 billion in the second quarter of 2023 to KSh 51.9 billion in the second quarter of 2024. The growth was largely supported by increased importation of helicopters in the quarter under consideration.
